# Sérgio Miranda Leitão

## Front-End/Web Developer

Osasco/SP · +55 11 98293-7876 · sergiomiranda86@gmail.com · LinkedIn · Portfolio · GitHub

## PROFESSIONAL PROFILE

Front-End/Web Developer with over 7 years of experience in digital products, websites, and enterprise platforms. Skilled in Angular, TypeScript, JavaScript, HTML, CSS/SCSS, API integration, WordPress, and PHP (Laravel/Symfony), turning Figma designs into responsive interfaces and continuously enhancing applications in line with UX/UI best practices. Experienced in maintenance, refactoring, debugging, and bridging technology, product, and business teams, with additional experience in BPM and process automation.

## PROFESSIONAL EXPERIENCE

**Alter Ego Soluções** | Technology Consultant (MEI) | *October 2023 - Present (MEI still active)*
Web development and technology consulting projects, delivering digital solutions, enhancing interfaces, and supporting process optimization for the following companies:

- **Frogpay** *(October 2025 - October 2026 | São Paulo/SP (hybrid))*:
  - UI/UX-focused front-end development using Angular, TypeScript, JavaScript, HTML, and CSS.
- **Frethical(Techlog)** *(June 2025 - October 2025 | Porto, Portugal (remote))*:
  - Maintenance and enhancement of features using PHP/Symfony, JavaScript, HTML, and CSS.
- **Mabru Consultoria** *(June 2025 - October 2025 | Sorocaba, SP (remote))*:
  - Complete development of a corporate website in WordPress based on a Figma design, including visual identity and digital support.
- **Elevar Energia e Tecnologia** *(April 2024 - June 2025 | Barueri, SP (on-site))*:
  - Development and maintenance of the proprietary Lesui 360 platform using PHP/Laravel, JavaScript, HTML, and CSS.
  - Support and enhancement of the corporate website on Wix, adding new features, implementing front-end adjustments, and maintaining content.
  - Creation of responsive email layouts and maintenance of SendGrid, helping reduce email bounce rates by 60%.
  - Mapping and automation of operational workflows in Bizagi Workflow, applying BPM and business rules.

**Banco Original** | Front-End Developer | *February 2021 - September 2023 | São Paulo/SP (remote)*

- Development and maintenance of the Original and PicPay teams' commercial platform using Angular and API integration.
- Implementation and management of the Originalidades portal in WordPress, and expansion of the Original website using HTML, CSS/SCSS, JavaScript, and Handlebars, following UI/UX standards.
- Development of workflows for payment service integration using IBM Business Automation Workflow and business-rule-based JavaScript logic.

**CSU CardSystem** | Systems Analyst / Front-End | *February 2020 - January 2021 | Barueri/SP (on-site)*

- Development and maintenance of payment solutions using Angular and Camunda BPM.

**Africa** | Front-End Developer | *January 2020 | São Paulo/SP (on-site)*

- Maintenance and development of landing pages using Squarespace, Photoshop, HTML, CSS, and JavaScript.

**Ideas Fractal Brasil** | Front-End Developer | *October 2019 - January 2020 | São Paulo/SP (on-site)*

- Development and maintenance of web products for business and leisure travel, in B2B, B2C, and OBT operations, using HTML, CSS, JavaScript, and Angular 8, with Git version control and agile practices.

**The Nine Level** | Front-End Developer | *May 2019 - October 2019 | São Paulo/SP (on-site)*

- Worked on the Cielo portal, implementing new features, landing pages, and bug fixes using Vue.js, RESTful APIs, Git/Bitbucket, Bootstrap, Bulma, Sass/Compass, Gulp, and Grunt.

**CP Business** | Oracle NetSuite ERP Developer | *February 2019 - May 2019 (on-site)*

- Creation of workflows, reports, and integrations via Web Services in the Oracle NetSuite environment, aligned with business rules and workflows.

**Via Varejo** | Processes and Projects Analyst | *November 2017 - December 2018 (on-site)*

- Worked on digital transformation projects such as Marketplace and FullCommerce, involving process mapping and improvement, definition of indicators, gap analysis, and ARIS/BPMN 2.0 modeling, along with PDCA and 5W2H practices. Liaison between business and IT for requirements, documentation, acceptance testing, and deployment, including processes related to SOx and PCI.

**Europ Assistance Brasil** | Service Design, BI, Communication and Operations | *October 2007 - November 2017 (on-site)*

- Ten-year career progression from Social Communication Intern to Service Design Analyst, following administrative and operations supervision roles. Experience in BI, intranet development with HTML, SQL, and PHP, Joomla CMS, BPMN/Bizagi

process mapping, system implementation and testing, as well as team management, performance indicators, and continuous improvement.
